

## Introduction

---

BITRUE FARM is an investment company in the field of Yield farming. You can invest in it easily and without enough experience and get significant profits.

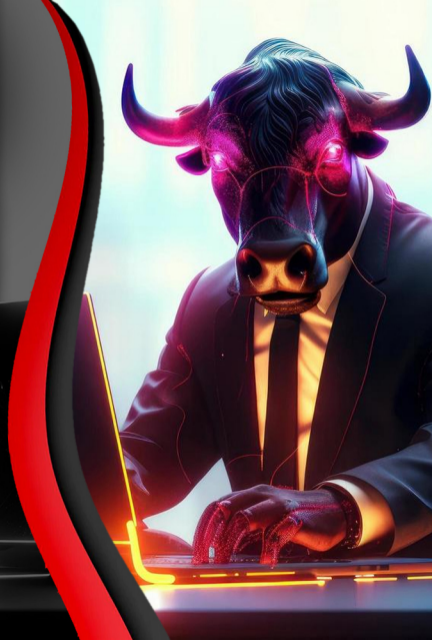

## Platform

The agricultural yield platform is a method in the field of Defi where people can benefit from transaction fees, loans, shares, etc. by locking the currency in the liquidity pool of a company or exchange for a certain period of time.

Now the question is, if you can invest in different exchanges alone, why should we do this in bitrue farm?

The answer is simple, because investing in these types of platforms, as well as having high profits, has many risks, and not having knowledge can put all your capital at risk. But our consultants and experts with high knowledge and information can choose the best investment portfolios and minimize the risk of this action so that you can get more and more reliable profit. Liquidity also depends on the amount of funds in this company that can provide the desired profits.

In bitrue farm, you can invest in one of the 5 proposed contracts according to your budget and time conditions and receive the desired profits every 24 hours.

It should be mentioned that the only currency accepted in this company is Tron and all profits are paid in the same currency.

**tip :**

- All people can participate in several income plans at the same time or renew a plan several times
- Extending the plan can be your capital gain.
- In this project, the principal and interest of your capital will be paid together.

## **Business Partner :**

Despite the profit from your investment, you can earn more profits by partnering in the company. In this way, you can introduce this income plan to others through family, friends, virtual space, etc. and if they accept to invest in the project, 3% of the total amount of their capital will be given to you instantly. If the person increases his capital, renews his contract or applies a new contract, this profit will reach you again.

The people you directly introduce are actually your level 1 and the people who invest on their behalf are your level 2.

In this way, if you refer 1 person to 3 levels, you will receive 3% for level 1, 2% for level 2 and 1% for level 3 of their capital .

If the number of direct investors is 3 people, despite the 3 announced levels, you will receive 0.5% each from levels 4, 5 and 6.

If the number of direct investors is 3 or more, despite the announced 6 levels, you will receive 0.5% each from levels 7, 8 and 9.

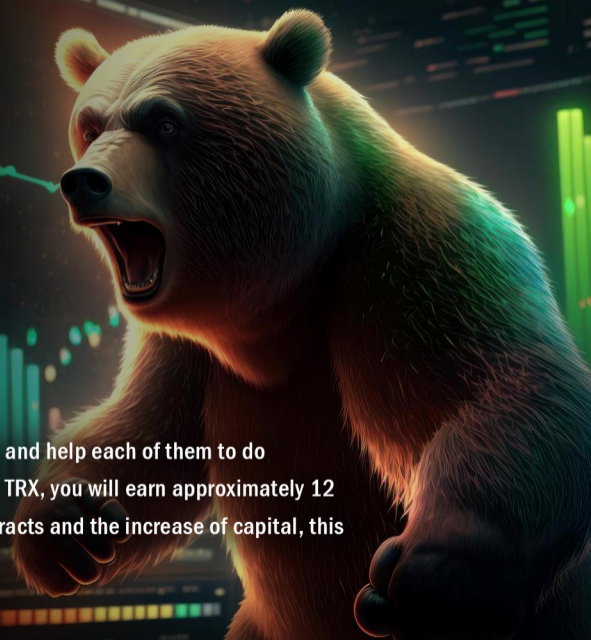

**For example ,**

if you directly invite 5 people in a short period of time and help each of them to do the same thing and each of them invest at least 1000 TRX, you will earn approximately 12 million trons. you will, that due to the renewal of contracts and the increase of capital, this number can increase even more .
